

Project Initialization and Planning Phase

Date	30 June 2026
Team ID	SWTID-2026-5245
Project Name	OptiCrop-Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer preparing to sow a new crop for the season.	Choose the crop that will give the best yield on my land	I don't know which crop best matches my current soil(N,P,K,Ph) and weather conditions.	I only have basic soil test values and weather readings ,not deep agronomic expertise	Confused and worried about wasting a season's investment
