

Initial Project Planning Template

Date	2 July 2026
Team ID	SWTID-2026-5245
Project Name	OptiCrop – Smart Agricultural Production Optimization Engine
Maximum Marks	5 Marks

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create a product backlog and sprint schedule

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-1	Data Input & Validation	USN-1	As a farmer, I can enter my soil nutrient values (N, P, K) and pH so the system can analyze my soil condition.	2	High	Ponnappareddy Pradeep	01-Jul-2026	02-Jul-2026
Sprint-1		USN-2	As a farmer, I can enter temperature, humidity, and rainfall values so the system has complete climate data for prediction.	1	High	Karthik Puli	01-Jul-2026	02-Jul-2026
Sprint-1	Crop Recommendation	USN-3	As a farmer, I can submit my soil and climate data and receive a recommended crop for maximum yield.	3	High	Suripaku Santhosh	01-Jul-2026	02-Jul-2026
Sprint-1		USN-4	As a farmer, I can view the confidence/suitability of the recommended crop before deciding to sow it.	2	Medium	Shiva Mallesh	01-Jul-2026	02-Jul-2026
Sprint-1	Deployment	USN-5	As a developer, I can deploy the trained model as a web application so farmers can access it online.	2	High	Sirivela Lokesh Babu	01-Jul-2026	02-Jul-2026
Sprint-2	Crop Suitability Check	USN-6	As a farmer, I can check whether a specific crop I already have in mind is suitable for my current soil and climate.	2	Medium	Ponnappareddy Pradeep	01-Jul-2026	02-Jul-2026
Sprint-2	Reporting & Analytics	USN-7	As a researcher, I can view aggregated crop-environment data to identify patterns across regions.	3	Medium	Karthik Puli	01-Jul-2026	02-Jul-2026
Sprint-2		USN-8	As a farmer, I can receive resource-efficiency tips (fertilizer, irrigation) alongside my crop recommendation.	2	Low	Suripaku Santhosh	01-Jul-2026	02-Jul-2026
Sprint-2	UI/UX	USN-9	As a farmer, I can use the application on my mobile phone with a simple, easy-to-understand form.	2	Medium	Shiva Mallesh	01-Jul-2026	02-Jul-2026
Sprint-2	Testing & Validation	USN-10	As a developer, I can validate the ML model's accuracy against test data before final deployment.	3	High	Sirivela Lokesh Babu	01-Jul-2026	02-Jul-2026
